[Meta Slider 3.3.5 Pro Nulled](#)

The screenshot shows the WordPress Media Library interface. The main area displays a grid of four images: a red nebula, a space scene with a blue nebula, a sunset over water, and a tree silhouette. Two images (the red nebula and the space scene) are selected, indicated by checkmarks and blue borders. The right-hand panel is open to the 'ATTACHMENT DETAILS' for the selected image 'space-2.jpg'. The details include the title 'space-2', caption 'Add Captions to slides', alt text, and description. Below this, the 'ATTACHMENT DISPLAY SETTINGS' are visible, showing alignment set to 'None', link to 'Media File' with the URL 'http://wordpress.dev/wp-co', and size set to 'Full Size - 1280 x 800'. At the bottom right of the panel is an 'Add to slider' button. The top of the interface shows 'WordPress Dev' and 'New' buttons, and the user 'Howdy, admin' is logged in.
